

Cognos Education Pack

Hassle Free. Flexible. Cost-Effective.

The Cognos Education Pack is a prepaid discount program that enables your employees to take Cognos training when they need it, where they need it — in public, on-site, or virtual classrooms. You can also apply the Pack to the Cognos User Adoption Service whereby Cognos Education will work with you to plan, develop and deliver a custom training program to ensure your end users adopt and use your Cognos applications.

The Cognos Education Pack is ideal for companies that want a cost-effective way to train multiple employees. The program helps address continuing education, staff turn over and new product training needs.

Hassle Free

The Cognos Education Pack removes the hassles in your purchasing process when you need more training - no purchase orders, no credit cards, no additional approvals every time training is needed. One time budget approval is all that is required for training, which can be taken across a twelve-month period by any employee.

Need to charge back the costs of training across your organization? Just ask for your Education Pack Summary which identifies the list of employees who have taken advantage of the training days.

Flexible

Any course, anywhere, anyone and a full year to use training days. Simply register for any Cognos classroom course and the equivalent number of days will be deducted from the balance.

Cost-Effective

The Cognos Education Pack is purchased as a volume of days of discounted training. Of course, the more days you purchase, the greater the discount. The Education Pack can be used for Cognos public or on-site training; and can even be used for remote virtual instructor-led classes. It provides training for up to one full year.

The Cognos Education Pack offers multiple levels of saving for increasing volume purchases, as detailed in the following table:

	Value	Discount	Customer Price
Education Pack 1	\$28,000	10%	\$25,200
Education Pack 2	\$56,000	15%	\$47,600
